BEYANT'S MINSTRELS have introduced a number of new acts this week, with several sones of the most pleasing character. The Sphyna was received with rosis of unres raised lauguter, calminating in a bo sterous shout by the audience when his Sphynx-ship disappears. Great attention has been given to the production of Mazeppa. The cat, properties, the production of Mazzppa. The cat, proberies, seen.c effects, and army, all come in for their share of appiause. F. Moran, as "Mazep," enacted his character with grace and archeess. Soymour, as the "Khan," adoed a digmity to that dignified coletian. Reed, as the charming "Olinska" dressed pretrily, and captivated many by his capital expression of "Can it be!" while Dempster, as the Castellan, showed a proper estimation of his duties as a warrior. The piece will be given again this evening. The Chesnut is a ways cool, a ways pleasant.

ROBERT HELLER this week produces his "Scare Spirit," one of the most bewildering and astounding of his delections. He a so varies his musical portion of the entertainment. His seames are similed to this week as he has made arrangements for a long and extended trip to Uniformia Australia, and India. He commences at Severy evening at 'New Arch Street theatre"

WALNUT ! TREET THEATRE .- Mas Effic Germon, Mr. Chester, Mr Fawert. Mr. Witham, and many others, all come in for a lage saure of appliance by the deschied andieness who nightly witness the beautiul speciace of the Naiad Queen, with its of interest, its scenes of beauty, and names of

ARREST OF AN IMPOSTOR-CAUTION TO THE PUBLIC .- For some time past a smooth-tongued confidence man has been moving about in the Seventh and Elshih Wards, gathering subscriptions ostensibly for the benefit of the Western Hose and Steam Fire Engine Company, but really for his own benefit. Last evening a man was arrested in the vicinity of Ninth and Walnut streets by a member of the above-maned company, who identified aim as the bogus teggar, and tanded him over to a police officer. He was taken be ore Mr. Alderman Tunkon this morning, where he had a hearing. On a memorial he gave the name of Henry Thomas, but his real name is Henry Vaccation, was house over for the target. Valentine. Fe was bound over for a further hearing, when those from whom he kis obtained money or the promise of it may come forward and identify the raceal. In a book found on the and identity for raccal. In a book found on the impostor's person, and previously definined by a prospective subscriber, subscriptions to the amount of over \$600 are encred—a considerable portion of which had been paid. Among the names of those who subscribed we observed those of Mr. Orexel. Charles Norris. W. W. Roberts, Dr. Neif, Mr. Gilpin, Mr. Hartley, R. B. Kneass, Dr. Hamilton, G. W. Foardman, Heury B. Benners, Dr. Fish, Dr. West, Joseph F. Linnott, J. E. Graeff, H. Van Beil, J. M. Crowell, Dr. Cresson, Mrs. J. R. L., John McAllister, Dr. J. M. Foliz, Mrs. Welsh, Dr. A. R. Thomas, Mrs. Gratz, and several hundred others.

night, about half-past twelve o'clock, was caused by the burning of a nonse at the south vest corner of Eighth and Christian streets. The fire originated in the ceion and is believed to have been the work of design as a quantity or shavings, saturated with coal oil, had been set on fire in tout apartment. The building was owned by Aug. Logomassius. The first floor was used as a lager beer saloon by Michael Asteno and John Farro, and the apper portions of the building were occupied by poor lamilies. The prompt alarm saved the runnies from serious consequences, as the fire turned rapidly and the house was soon filled with dense smoke. The fire burned up through the floor to the bar-room. The owner of the building is fully insured in the Franklin Insurance Company, while the occupants of the saloon are secured in the Phoenix and Metropolitan

A MCTHER'S DUTY to her child is, first of all, to watch over its health. Among children, in nine cases out of ten, disease first manufests itself by a disordered state of the bowels. This is invariably counteracted by the use of MARS JEN'S CAR-MINATIVE SYRUP. No family should be without it; its general use would do away almost onurely with the fearful list of deaths among children, which form such a startling item in the weekly reports of the City Inspector. A DISORDERED STATE OF THE BLOOD is the prime cause of many very troublesome complaints. Skin Diseases, Mercurial Affections, Scrofnia, Scurvy, and Gottre are but a few of the many disorders arising from the deprayed condition of the yilal fluid. For diseases of this class JAYNE'S ALTERATIVE is a rollable curative; by ent-ring into the circulation it thoroughly purifies the blood, and removes any morbid tendence to disease which may exist in the exstem: 11, at the same time, sustains the strength of the patient, and imparts views to the whole physical structure. To be satisfied of its efficacy, read the testimony of those who have been radically cured by it, given at length in Jayne's Almanac. Prepared only at No. 242 Chesnut street.

ASSOCIATION.

AN AMUSING STORY, By One who Visited the Colion Denial

Association. "Alighting from the omnibus which has brought us up through Broadway's hurrying throng, which seem ever pursuing some mocking phantom that cludes their grass, we second the marble steps of the 'Cooper Union.' It is 'all very fine' to enter tals pleasant reception room, but the studio beyond the folding doors-'ay, there's the run!' But as the kindly face and pleasant voice of the Professor greet us, our errand seems shorn of halfits terrors. Yet we cannot forbear asking, as we present our credentials and look timidly up at the compassionate dark eyes so far above our own diminutive stature, 'Will it kill us?' A pleasant laugh and an assuring word cogvince us that our time has not vet come; and we comply with the invitation to enter the operating room, with our two accompanying triends (the fair tace of one assumes the line or driven snow), with very much the feeling that the fly accepted the proffered hospitality of the spider. "Ere aware of it we are seated in the dreaded chair, en-

gaged in a pleasant conversation. Suddenly we find a prop nsinuated between our jaws, and the monthpiegs of a villanous looking black hag between our lips. Two pair of hands, so gentle in their manipulations as to almost lead one to doubt their owners belonging to the masen line persuasion, hold our mouth upon the sipe that the inhalation of the gas may be more perfect, while the owners of the aforesaid hands speak gentle words or encouragement. The soft hand of a lady assistant is laid assuringly on our own, and we can almost feel the suppressed anxiety of the two beloved companions behind the chair. A buzzing sound, as of myriad swarms of bees! Anon comes floating by, in grand measures and long-drawn cadences, a sweet old triumphal hymn, such as those may sing who, having lett all of earth behind them, enter into the glory of the Lord; and mingled with this, a wild symphony of easiling waves, ringing their 'ceaseless never more.' Yet how strange! that last word of the hymn gave us a sight twitch, followed by two more, which partook of the mature of a strong yet paintess wrench. Your teeth are out, say three kind voices, But we have not come down yet to the sublunary world sufficiently to comprehend their meaning, until the assurance is repeated by one or the fami far voices behind the chair. We rise a new being and leave at the feet of the kind operator fifteen motars and incisors—a tribute to the greatest discovery of the age. "MARY N. BOCK WELL."

DR. COLTON has made the Nitrous Oxide, or Laughing Gas," for more than twenty years past and originated its anasthetic use for the oxtraction of teath in May, 1863. Since then we have administered it to

without a single failure to produce insensibility to pair, or one case or uncleasant or injurious effects from the gas, which is so incident to chlorotorm and effer.

Every one of these 15 000 pattents have skined a certificate scroll that the operation was painless and pleasant. We can expract from ten to fifteen teeth with one dose of gas. sant We can expact from ten to fitteen teeth with one dose of gas.

"I should never have a tooth drawn without it."
God bless the inventor."
But it will be asked does it destroy all pain? Is the gas pleasant to breathe? Does it leave any bad effects mierwards? Can a person with weak lungs or heart disease inbale it with safety? We answer it does destroy all pain; it is pleasant to breate-no bud effects, such as depression or reaction, follow; it is safe for those having weak lungs or heart disease. Indeed we have had fifty such patients tell us they feit better for a week siter inhaling the gas.

But what do the medical profession say of the gas? The following letter from the distinguished surgeon, Dr. J. M. Carnechaa, to Dr. Cotton, speaks for itself:— No. 14 East Sixteenth street. New York, December 22, 1865.

To you is due the credit of revising the use of this important agent in the practice of deutistry, after a lai of twenty-two years.

The value of a see an esthetic agent, which can be used without anticipation of danger to the patient, is a great boon to suffering humanity and I have related thus minutely its ation in my own cases in the belief that it similar layorable results are met with by others, the nitrous exide gas will supersede all other anesthetics now in use.

J. M. CAB OCHAN,
Surgeon-in-Chief to the State Heapital, etc. etc.

TESTIMONY FROM DR GRI*COM.

New York, March 8, 1865.

Having a ceasion recently to undergo a minor surgical operation of much severity. I embraced the opportunity to try the anaesthetic effect of nitrous oxide gas, administered by Dr. G. Q. COLTON. I found it perfectly satisfactory. I was put into a sound sleep in a few seconds, and remained so until the operation and dressing of the wound were completed. While looking for the incisions to begin, I found they had all been done.

Physician to New York Hospital.

The degree of insensibility produced by the gas may be interred from the following

AMUSING INCIDENT.

A lady came to our office to have one tooth extracted.

After examining the tooth, we administered the gas, and when she rell saleep the tooth was extracted. On waking she spit out the blood, and in a few minutes was asked to vacate the chair for another patient, and take a seat at the table. Not offering to pay, we, as a gentle reminder, asked her to said her name to our scroll. "Why!" said the lady, when are you going to draw my tooth?" The tooth had been out ten minutes!

TESTIMONY FROM THE NEW YORK EVANGELIST. TESTIMONY FROM THE NEW YORK EVANGELIST.

"We are slow to believe in the efficacy of new remedies that are offered to the public, but the frequent testimony of elersymen and others of our acquaintance assures us that Dr. COL'ON, whose office is in the souper Institute has at last found a means of extracting feeth absolutely without pain.

" " we think it a duty to publish this fact, which we give, not on our own experience, but on the testimony of men of high character and intelligence, who are utterly incapable of deception."

Our price for extracting is \$2 for the first tooth, and \$1 for each subsequent tooth. [6 12 tus8t
